

SKYWIRE SITE AUDIT

Do you suffer from Wireless Dropouts?

Slow Response times?

Poor Wireless Coverage?

Frustrated Users?

Poor wireless performance can decrease productivity dramatically. Get your wireless wrong and it will cause you a lot of pain. Get it right and you will never be able to do without it.

If you suffer from poor wireless performance in your warehouse Skywire can help you. If you suffer from dropouts, slow response times, frustrated users then we know how to help you.

We believe that our experience, certifications and the skill of our people can help improve the performance of your warehouse. We have a long history of deploying wireless

and have hundreds of wireless sites working successfully, supporting many large customers across Australia and New Zealand.

We have helped resolve many dropout issues for many customers so know what to test for, what to look for and the potential problem areas.

We are so confident we can help you that we will perform a free wireless audit of your site. Our engineers will understand your issues, analyse your network and provide a documented report with clear recommendations and an action plan to improve your performance.
